Product Specification Sheet

Targus Ultra-Slim Stow-N-Go Wireless Presenter

Part #: AMP12US

Product Description:

The Targus Ultra-Slim Stow-N-Go Wireless Presenter allows you to wirelessly control presentations from up to 60ft away. With a simplistic layout, the device has minimal buttons so you are sure to press the right button during a presentation. The ultra-bright laser pointer makes it easy to call out specific highlights during a meeting. The presenter conveniently stores in either an ExpressCard™ slot or a PC Card slot so you always have your presenter with you when needed. The wireless receiver fits onto the back of the presenter so it's always easy to find. The Targus Ultra-Slim Stow-N-Go Wireless Presenter is the ideal basic presenter and requires no drivers, simply plug and play.
